party tip

Prepare a signature cocktail to serve in pitchers on the table – it's easy and economical!

Café-style lights strung across the yard exude a playful market vibe.

These iconic metal chairs are robust and easy to clean, making them ideal for outdoor use. But more importantly, they don't compromise on style.

the LOOK

Rustic Industrial

When it comes to creating this pared-back look, think fuss-free decor with loads of character and charm. The trestle table paired with metal and wicker chairs reads as casual, while the table setting featuring basic white dishes and a burlap table runner feels effortless.

Cobalt blue gingham napkins spice up the casually laid place settings.

INSPIRATION

We love lifestyle blogger Monika Hibbs's comfy casual sitting area. Here's how you can create a similar look in your own outdoor space.

ACCESSORIZE WITH TOSS CUSHIONS IN BOLD COLOURS AND NATURAL TEXTURES.

STICK TO A COLOUR SCHEME: WHITE, BLUE, BLACK AND GREY IS A CLASSIC NEUTRAL CHOICE.

OPT FOR WEATHER-FRIENDLY FURNISHINGS THAT ARE AS STYLISH AND COZY AS INDOOR ONES.
